

The International Plastic Quilt Project

GYRE PATTERN

Help put a traditional quilter's spin on the International Plastic Quilt Project and practice using single-use plastic as an art supply! Suggestions: Start with a 12 x 12" plastic bag as a base for these pattern pieces. You may glue the pieces onto the base, but please reinforce with thread by hand or using a sewing machine. Attach lids and other rigid plastics to the surface to embellish the pattern in your own way!

To create a gyre effect, follow this pattern!

- 4 triangles (A) of the color 1 (#1)
- 4 triangles (A) of color 2 (#2)
- 2 half-arrows (B) of color 3 (#3)
- 4 half-arrows (B) of color 4 (#4)
- 2 half-arrows (B) of color 5 (#4)
